ADAME ETECH

SPRING LOADED POGO PINS, CONNECTORS, AND MAGNETIC CABLE ASSEMBLIES

Adam Tech Pogo Pins and Connectors (spring loaded terminals) consist of a pin, barrel, and steel spring with or without an insulator carrier. They are used in many industries across a wide range of applications to make a secure, high reliability connection. This series is highly customizable to meet specific stroke lengths, heights, and electrical capabilities. High-temp plastics are used for our insulators and unlimited molding designs allow for many different shapes and styles to be created for specific applications.

Available in single and dual row, high and low profile, and a wide range of termination types such as Through Hole, SMT, Threaded, and Solder Cup.

APPLICATIONS:

- Medical Equipment
- Mobile Communication Devices (cell phones, antennas)
- Dig ital Cameras
- POS Terminals
- Barcode Scanners
- Touch screen Applications
- Automotive
- (GPS Charging,
- GPS Docking, Cradles)
- · Wearable devices

FEATURES AND BENEFITS:

- High Reliability, corrects connection between uneven surfaces and satisfies high vibration connection requirements
- Endurance up to 1,000,000 cycles and still electrically silent.
- Maximum Stability: Tested to a minimum of 50G shock and 10G vibration with no spikes.
- Precision machined gold plated components with low resistance.
- Increased durability for heavy duty applications
- · Highly Customizable: Size, stroke, shape, pin count, etc.
- · Low Cost and Easily Integrated

Waterproof Discrete Spring Loaded Pins

Adam Tech Newly Released "Waterproof" Discrete Pogo Pins are manufactured with the same precision as our standard disscrete pogo pins with an added rubber seal. These pins are IP rated for repelling water and suitable for outdoor applications subject to a wet environment.

Discrete Spring Loaded Pins

Adam Tech Discrete Spring Loaded pins are manufactured with precision from the highest quality brass barrels and plungers, support by industry leading spring steel to support long life cycles and high reliability. Our pins come in a wide range of heights, stroke length, mounting orientations, and electrical capabilities.

Special Spring Loaded

Adam Tech offers full design customization capabilities for our spring loaded connectors. Below you can find a range of customized spring loaded connectors we've tailored for very specific applications. These are available for purchase. Customers can also request different shapes, sizes, and other features to fit into any application requirement necessary. Fast turn design and full 2D/3D models are available during the design phase. From concept to production, designing a custom spring loaded connector with Adam Tech is a seamless process aimed at total customer satisfaction.

Mating Pad Connectors

Adam Tech Mating Pad Connectors are the ideal mating solution for our line of spring loaded connectors. These dip-loaded parts have a .100" [2.54mm] pitch, vertical mounting orientation, and through hole termination. They are offered in either a single row or dual row configuration. Positions range from 1-40, offering mating capabilities to a wide range of pogo pin products.

Single & Dual Row Female Mating Pads

Magnetic Cable Assemblies And Connectors

Magnetic assemblies are a popular and quickly growing cable assembly choice. Adam Tech has incorporated 30 years of connector knowledge and experience to develop a line of custom magnetic assembly solutions. These cable assemblies offer several key features and benefits in the market:

- Blind mate and easy connection
- Waterproof capabilities
- User friendliness
- Easily detachable for real world applications (fitness, medical, outdoor, etc)
